

# NEWSTYLER

## For those who don't know you. Who are you and what do you do?

My name is Patrick, better known as DJ Newstyler. I am 22 years old and come from Aachen (Germany). Basically I am active as DJ in the scene. In the last 3 years I performed on several bigger and smaller events in Germany, Netherlands and Belgium and since recently I am a member of the Underground House Movement Artists. I also produce own tracks and plan to release them in the future.

## What influence does your Musical activity have/had on your Life?

That's a good question... Music plays an important role in my life. Since I make music, I work every day really hard on my career and try to reach new goals. All in all the music makes me happy and I like seeing the people going crazy on my mixes and when I perform on stage.

## When you do what you do, do you do it on purpose or does it just happen?

I think less things that happen in my life just happened, because I worked and practiced a lot for the things I reached. And I am convinced that I can reach every aim even if I want it. But also everbody needs luck with the things he's doing.

## Do you stick to 1 artist name? Or different names for different styles?

I have 2 artist names:

- Newstyler for my activities in Mainstream Hardcore, Darkcore and Early Hardcore

Especially under that name I like to spin actual and brand new Mainstream Hardcore (New Styles). That's why I called myself Newstyler.

- Cutmasters on the other hand build a DJ Team including DJ Stylewars and me. We stand for styles like Jump, Hardstyle and Early Rave.

## Internet is for:

**A. Anonymous spleen venting(criticism).**

**B. Business**

**C. Hyves , MySpace, Partyflock, Corefreakz, Hardcoreboard etc.**

**D. Other:**

B. for e-mail, C. for information , D. my homepage [www.djnewstyler.com](http://www.djnewstyler.com)

## What worries you most when looking at the present scene?

It is a fact that there are more and more Events and music where it mangles on quality, which isn't good for the Hardcore scene. That should not mean that there is no opposite to that.

## What do you think was your best performance ever?

My best performance ever was definitely the gig on Earthquake Ger-

many 2007 together with DJ D-ceptor at Turbinenhalle Oberhausen and the performance on Proud 2 Be Hardcore at Megaparc last year. There were also various small parties among other things at Club Quinta in Belgium where I spinned regularly Saturdays in the years 2006 and 2007.

## Which track(s) is always again in your record/CD case? And why?

Drunk with a gun by Endymion & Nosferatu and Demolition by Tommyknocker

Why? 2 fat partytracks, which I still pump to also after listening to them 1000 times...

## What is the best about our beloved scene?

Basically the music (especially by Labels like: Enzyme, Traxtorm, Neophyte Rec. etc.)

and the great atmosphere on many parties or rather the pure celebrating of the partypeople.

## Is there anything you miss nowadays in regard to the past of the scene?

Actually just the Oldschool music and the hardcore culture of the past.

## Any last words?

See you @ Raving Nightmare and keep them titties jumping!!!
